

4/30/18

To our valued EB Metal customer,

I am writing to confirm that Eastern Metal Building products will not be having any price increases effective 5/1 and we will honor the current price list in place.

Eastern Metal Building Products however will be implementing a minimum 10% increase on all EB Metal products on 6/1/18.

Although we will honor the quoted projects that you have currently secured with your customers, uncommitted quotes that have been issued for over 30days will no longer be honored. And all quotes moving forward will need to be secured within 30days or they will be void.

We appreciate your business and we will do our best to keep you informed moving forward under these continuing uncertain times. Please feel free to reach out if you have any questions.

Sincerely,

Dave McCartney
VP of Sales
